

HofmanDujardin

Architect

HofmanDujardin is a Dutch design firm specialising in architecture, interiors and product design. The practice was founded in 1999 by Barbara Dujardin and Michiel Hofman. Based in Amsterdam, Netherlands, the studio employs a multidisciplinary team of over 40 architects, designers, draftsmen and interns, speaking over 10 languages. The studio specialises in workspaces, office buildings, renovations, residential developments, public buildings, sports and cultural buildings.

HofmanDujardin is looking for talented Architects with minimum 3 years experience to work on a large range of projects. You will be part of an energetic team, working on a variety of projects from small scale to big scale, local to international, private to corporate. Your work will cover various design phases, from first sketches to final details. We appreciate creative input of all our staff and offer possibilities to grow in an open and dynamic working atmosphere.

Job requirements

- excellent design skills
- professional degree in architecture
- 3-5 years experience in architecture projects
- experience in multiple design phases
- affinity with materials and detailing
- team player with social skills
- advanced knowledge in Archicad/AutoCAD, Adobe suite, Sketchup, hand sketching
- perfect communication skills in English

You will enjoy working in an international, creative and experimental studio in Amsterdam. The studio works in five mixed teams of around 8 passionate architects and interior architects each with different levels of experience. The teams are inclusive and embrace different backgrounds and expertise. Under the direction of the team leader, you will work with your team in close collaboration with Michiel Hofman and Barbara Dujardin.

Your application should include a motivation letter, CV and a portfolio of maximum 20 pages in a PDF format. Please reply to the attention of Barbara Dujardin to: jobs@hofmandujardin.nl
